- "I am the type of person who is quite afraid of anyone getting near my eyes. That being said . . . I have to say that Dr. Jones was as thorough as I could possibly ask. He gave me a complete description of what was going to happen before it happened, and everything occurred exactly as he described. His staff could see that I was somewhat anxious about the process and thus couldn't have been more comforting and professional than they were. The process was pain-free and far quicker than I imagined. Dr. Jones and his staff even called me at home on more than one occasion to ensure that I was doing well after the procedure. I would and have recommended Dr. Jones to several friends and would highly recommend them to anyone wanting perfect vision!!! Thank you Dr. Jones and all of your staff" Andy P.
- "I am quite young to have cataract surgery, but need it due to a complication of Lupus and the medication I'm taking. In any event, I had my first surgery a few days ago (they do each eye separately) and can't believe how easy it was. I have worn glasses since I was a child and now I can see out of my right eye almost perfectly thanks to Dr. Lueth. What I want to share is the assurance that you will be well taken care of by every staff member - from the receptionist to your surgeon and everyone in between. The staff was busy moving patients through surgery, but with every person I saw I felt like I was their only patient. It was efficient and a positive experience! Don't hesitate to visit Physicians Eye Clinic in Everett, WA." M.L.
